

## Schedule: Monday 7 June

09.15

### Introductions

09.30

### Keynote 1

Alex Mesoudi

A brief history of cultural evolution

10.30

### Break

10.45

### Short Live Talks 1

Eva Reindl

Young children spontaneously invent different types of associative tool use behaviour

Sadie Tenpas

Does coordination stabilize cultural traits in chimpanzees?

11.45

### Break

12.00

### Lightning Talks

Alba Motes-Rodrigo

The Method of Local Restriction: In search of potential great ape culture-dependent forms

Yoav Ram

Cultural evolution of cooperation: the role of non-vertical transmission

Claudio Tennie

How likely are self-enculturation effects in apes and early hominins?

Anthony Formaux

The experimental emergence of convention in a non-human primate

Dominik Deffner

Effective population size for culturally evolving traits

Natalie V Wareham

Cross-cultural variation in human reproductive success: Testing Bateman's principles

Silas Elliott

How can digital mediation influence biases to cultural transmission?

Carlo Vreden & Zanna Clay

The development of empathic concern across two cultural contexts

13.00

### Lunch

13.45

### Poster Session

14.30

### Short Live Talks 2

Mathieu Charbonneau

Is Fidelity a Causal Concept?

Valerie van Mulukom & Micia de Wet

Forgotten culture, ignored imagination: An evolutionary, dual-pathway, embodied cognition model of how humans navigate and make sense of reality

15.30

### Break

15.45

### Keynote 2

Christopher Krupenye

The social minds of humans and other apes

## Schedule: Tuesday 8 June

09.30

### Keynote 3

Katie Slocombe Cultural variation in chimpanzee communication?

10.30

### Break

10.45

### Short Live Talks 3

Levin Brinkmann Hybrid social learning in human-algorithm cultural transmission

Thom Scott-Phillips Culture without copying or selection

11.45

### Break

12.00

### Lightning Talks

Elisa Bandini Examining the mechanisms underlying the acquisition of animal tool behaviour

Karl Schlag Social Learning Between Groups: Imitation and the Role of Experience

Aurélien Frick Carry-over effects of tool functionality and previous unsuccessfulness increase overimitation in children

Lilah R Sciaky Dyadic response facilitation in the expression of object play in Balinese long-tailed macaques

Camilla Cenni Extrinsic and intrinsic predictors of material culture in a non-human primate species: Stone handling in Balinese long-tailed macaques (*Macaca fascicularis*)

Natália Dutra Is collaborative learning a relevant construct in the cumulative culture framework?

Joana Bessa Reconstructing local cultural variation in unhabituated wild chimpanzees at Cantanhez National Park, Guinea-Bissau

Hanna Schleihauf Chimpanzees seek help, but not strategically

13.00

### Lunch

13.45

### Poster Session

14.30

### Short Live Talks 4

N.-Han Tran Constraints on complexity in artistic traditions

Damien Neadle Can apes ape? What about with the addition of biases?

15.30

### Break

15.45

### Keynote 4

Fiona Jordan Relatively Speaking: The Cultural Evolution of Kinship Diversity

17.00

### Live Band Performance: Reely Jiggered (45 mins)
